## GENESIS G70 NAMED 2026 BEST SMART LUXURY VEHICLE BY CARGURUS

- 2026 Genesis G70 recognized for its smart technology, intuitive safety features and dynamic everyday driving capabilities in first-ever win from the CarGurus Confidence Awards
- G70 delivers an elevated driving experience through athletic performance and advanced technology

**FOUNTAIN VALLEY, Calif., May 6, 2026** — CarGurus has honored the Genesis G70 its Best Smart Luxury Awards as part of its inaugural Confidence Awards, recognizing the sport sedan for delivering a combination of advanced technology, safety features and performance for everyday drivers.

“At Genesis, we’re committed to providing vehicles with intuitive features that enhance usability and elevate the driving experience,” said Tedros Mengiste, Chief Operating Officer of Genesis Motor North America. “G70 continues to resonate with enthusiasts and everyday drivers alike, delivering a refined yet engaging experience.”

G70 is equipped with advanced technology and convenience features focused on everyday usability. Standard features include standard premium navigation with a 10.25-inch HD screen, USB-C charging ports, touch-type climate controls, and a frameless rearview mirror. Available Genesis Digital Key 2 with Near Field Communication (NFC) compatibility allows drivers to unlock, start and share access to the vehicle using Apple Wallet or Samsung Pass, while automatically loading saved driver preferences.

G70 comes standard with a 2.5-liter turbocharged engine producing 300 horsepower paired with Brembo brakes. It also comes in a 3.3-liter twin turbocharged V6 gasoline engine. This powertrain also propels the G70 Prestige Graphite, balancing performance and advanced technology. Five selectable drive modes adjust steering, throttle response, suspension behavior and fuel efficiency.

Exterior design elements reflect Genesis “Athletic Elegance” design philosophy, including the new Genesis emblem engraved with a Guilloche pattern, new exterior color options — Vatna Gray and Kawah Blue — and Two-Line headlamps featuring micro lens array (MLA) technology.

“This award is all about thoughtful luxury that appeals to your head as much as your heart,” said David Undercoffler, head of consumer insights at CarGurus. “And there’s nothing on the

road today that's better at proving luxury can be both rational and indulgent than the Genesis G70. Regardless of which engine, drivetrain, and price point you pick, this sport sedan comes standard with endless satisfaction."

The inaugural CarGurus Confidence Awards were relaunched to give shoppers greater clarity and confidence during the car-buying process. Vehicles are evaluated using a rigorous, transparent methodology that leverages CarGurus' inventory and pricing data, and emphasizes objective vehicle scoring across areas such as performance, efficiency, safety, technology and cost of ownership, with final selections informed by expert insight from the CarGurus editorial and content teams to reflect real-world ownership needs.
